

Individual Support

Our staff is available to meet in person or speak over the phone to discuss your situation. Caring and experienced staff are available to meet with victims and their families to listen, provide support and advocate for each individual according to their individual situation. It is important to be safe not only during a traumatic incident, but also when a victim is preparing to leave, when a victim files for a protective order and daily at a victim's residence, on the job and in public.
